

# INTEGRATION OF THE EXOSKELETON IN THE BATTLEFIELD WORKSHOP

17 - 19 October 2018  
PVA EXPO PRAGUE, CZECH REPUBLIC

Dear Ladies and Gentlemen,  
dear Colleagues,

As the director of the NATO EOD Centre of Excellence, I am pleased to invite you to the 3rd Integration of the Exoskeleton in the Battlefield Workshop (IEB WS).

The NATO Integration of the Exoskeleton in the Battlefield project is held within the Future Forces Forum programme and is sponsored through Defense against Terrorism Programme of Work (DAT POW) and in cooperation with NATO Communications and Information Agency (NCIA).

The main objective of this project is to help NATO and Nations to understand the technological readiness of Exoskeleton for Human Performance Augmentation (EHPA) capabilities, support the formulation of minimum military requirements in this area, and refine operational concepts.

I look forward to meeting you at the workshop and I am convinced that this event will push one-step further the successful adaptation of the exoskeleton in the military community of interest.

Colonel Robert CSASZAR, SVK A  
Director NATO EOD COE

# 17 OCTOBER
