Integral part of the Future Forces Forum 2016 programme are also official expert working groups' sessions in the week of 17 to 21 October 2016. Members of these groups are actively involved in the expert events, exhibition and live demos held at PVA EXPO PRAHA.

Among the officially invited and represented groups are for example the following:

NATO CBRN MEDICAL Working Group

» 60 leading experts from the chemical and medical services of the NATO armies, PfP and other partner countries

NATO Military Committee Medical Material and Military Pharmacy WG

» 20 representatives of the medical representatives, national and international commands

NATO STO – SCI-287 „Assesment Methods for Camouflage in Operational Context“

» 25 experts in the field of camouflage and concealment from NATO and other interoperable partner countries

NATO Army Armaments Group, Land Capability Group on Dismounted Soldier Systems (NATO AC/225 - LCG DSS)

» 250 experts in the field of future soldier/dismounted soldier systems (allied as well as national level)

» Main Focus: Combat Clothing, Individual Equipment & Protection (CCIEP); Soldier Capabilities Analysis; C4I & Systems Architecture; Non-lethal Capabilities; Head Borne Systems; Power; Weapons, Sensors & Optics; Ammunition Interchangeability

» Except of the above mentioned, the experts are also actively engaged in the cross-cutting issues related to dismounted soldiers deployment

» **Other expert working groups from the NATO and EDA will be officially invited subsequently.**

Jiří Hynek
RNDr. Jiří Hynek
prezident AOBP ČR
V Praze dne 25. června 2015

» NATO, the recent sponsoring committee of NATO national experts (AC/301), and the individual nations who hosted the very successful exhibitions on Combat Clothing and Individual Equipment (CCIE) over the past seven years have expressed their sincere appreciation for the professional way that International Coordination Centre undertook and very successfully discharged this technical and politically high profile NATO task.

G. Le FOURNIS, Defence Investment Division, Armaments Planning, Programme and Policy Directorate, NATO HQ (2003)

» Your long-standing effort, for more than a decade, organising CCIE, CCIEP and FUTURE SOLDIER exhibitions is both highly-valued and recognised by soldier system experts. Your International Coordination Centre has undoubtedly secured a solid position for further FUTURE SOLDIER Exhibitions within the soldier system community.

Henrik DAM, Head JAIS (Joint Armaments and Industry Section), NATO HQ (2011)

» FUTURE FORCES is an excellent venue for sharing technology updates and information amongst the members of the military, academia and industry. The exposition brings together subject matter experts from across a broad range of disciplines in an environment conducive to broadening comradeships and relationships.

J R Smith, Multinational Engineer Coordinator at US Army (2014)

» This event has gained a great reputation within the international community.

Juan Manuel García Montano, Director General, Dirección General de Armamento y Material (2014)

- » This has been an extremely useful and enjoyable experience. It is always pleasant to have an opportunity to exchange information, ideas and examples of clever design within a community of experts and interested parties.

Expert Delegation, Canada (2003)

- » On behalf of the Danish Quartermasters Branch it is a pleasure for me to express my appreciation for doing a great job by arranging CCIE Exhibition 2003. Anything was very well organized and we hope that all other countries got the same good benefits as Denmark did.

Expert Delegation, Denmark (2003)

- » Exhibition was very nice! I'am very glad to visit it!

1st LT Raimonds Rozenfelds, NAF, Republic of Latvia (2014)

- » This is to express my deep appreciation for participating in this year's Future Forces Exhibition & Conference that was held in Prague. The Exhibition and Conference were very interesting and allowed room for networking and stimulating discussions on security topics of the hour.

Amr FAHMY, Third Secretary, Embassy of the Arab Republic of Egypt in Prague (2014)

» Great event for connecting with our customers from all over Europe as well as meeting new customers. We have been exhibiting at this show since the days when it was called Future Soldier.

Sir Kenneth Geyer, VP Business Development/Co-Founder of Liteye Systems, USA (2014)

» Let me express my sincere gratitude for your contribution to organisation of the EMPA Congress in Prague in conjunction with the Future Soldier Exhibition & Conference (FSEC). I believe our cooperation has already proven to be a success. Let me assure you that the EMPA's members will always remember this past congress as well as our cooperation with the FSEC with great satisfaction. During this congress EMPA's members had an excellent opportunity to see and learn new and useful things. I consider this type of a conference very important both to us – the representatives of military mass media as well as to businessmen and government officials.

Ms. Liga Lakuča, President, European Military Press Association (EMPA) (2012)
